

## Enough Is Enough

Old man told about the war  
Out on the street, nobody hear  
Politicians lie in the microphone  
They take everything down to our bones

One too many hungry child  
One too many soldier die  
One too many mother cry cry, cry, cry, cry

Enough is enough

On Wall Street works the Man in Black  
Money is nothing, only paper stack  
Weapons give some peoples a golden crown  
We all live in this danger zone

One too many hungry child  
One too many soldier die  
One too many mother cry cry, cry, cry, cry

Enough is enough
