

# She`s gone

I know a place some call them heaven  
Where live is free an hearts are warm  
I know a time that`s half past seven  
When you are gone and left me here alone

And all my feelings inside getting bad  
The memories of yesterday running through my head

To fall in love was never easy  
And sometimes a sunny road will end in pain  
For a short time this love has free me  
But since she`s gone nothing felt the same

And all the glance and happiness is lost  
Lonely on a way been surching for new trust

Since she`s gone, she`s gone, she`s gone  
I`m just another one  
Since she`s gone, she`s gone, she`s gone  
I`m just a lonely one

Time will ignore any stop sight  
Wind turn to storm and sunshine into rain  
One day is never like another  
And live is more much more than just a game

And some ware is the one who understand  
A bright shining candle reaching out here band

And since she`s come, she`s come, she`s come  
I am another one  
Since she`s come, she`s come, she`s come  
I be a happy one  
Since she`s come, she`s come, she`s come  
I never be a lonely one

Lyrics: Thomas Hafner
